

-Place wrapper as a diamond.
-Place 2 tbs of filling just below the center line.

1

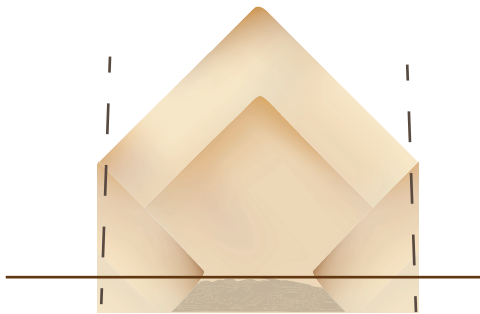

-Shape the filling to a 5 inch (approx) line.

2

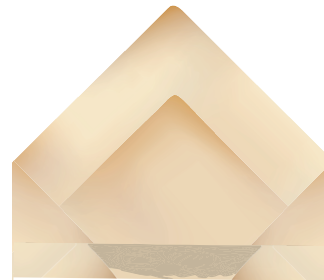

-Fold the bottom corner over the filling.

3

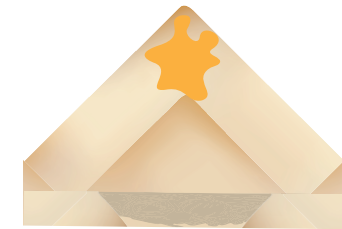

-Slightly press the folded over bottom flap closer to the filling, to reduce air pockets.
-Fold in left and right corners at the edge of the filling.
-Folding the corners making a slightly less than a 90 degree angle will give you a cleaner rolls.

4

-Continue to reduce air pockets, against the filling as you roll it up to the top corner.

5

-Continue to reduce air pockets, against the filling as you roll it up to the top corner.
-Apply some scrambled egg wash to the top corner to secure the roll.
-Complete the roll.
